

# LargePACK

The industry standard bulk-fill monitoring system for the brewing industry

## The Issues....

- *In today's fast moving business environment information is power.*
- *Failure to access information quickly and provide a response leads to a perception that a poor quality of service is being offered.*
- *More and more companies are now beginning to see the limitations with paper documents and are looking for a better solution.*
- *Not only do they require a system to record their information, they also need a system that will analyse their data and highlight any critical quality parameters that are drifting from the specification.*

## The Features...

*LargePack is an industry standard weight and quality monitoring system for Kegs and Casks, providing a complete solution for Customs and Excise and Average Contents.*

*LargePack operates in two modes:*

- *Manual Data Capture whereby an Operator enters information using either a touchscreen or keyboard and mouse.*
- *Automatic Data Capture whereby LargePack connects to a rotary filler and receives and records data automatically.*

*LargePack conforms to current HMCE and Trading Standards requirements.*

*LargePack connects to all standard PC networks giving live data at the manager's desktop.*

*is the author of the software used by Trading Standards*

*West Yorkshire Trading Standards Service*

## *A cost-effective solution for the Brewing Industry*

*ICCS has been writing quality control software since the early 1980s. With over 100 satisfied customers, ICCS is proud of the fact that its products have helped many companies (small and large) to safeguard their operations to the benefit of all concerned.*

*Some of ICCS' customers include...*

*ICCS is the recognised leader in providing quality assurance and control systems, for high speed, process-packaging operations.*

*LargePack provides the correct level of information, instantly and accurately.*

*ICCS take care of the whole project – design, project management, installation, training and support.*

*LargePack provides paperless storage for up to six year's worth of data.*
